

# Endless Scroll Instructions

**1.** Cut apart the strips of the handout, then glue them together in order to make one really, *really* long strip.

**2.** Tape the end of the strip to the center of a straw, then roll the strip around the straw. (The end that says "Psalm 119" should not be the end you tape to the straw.)

**3.** Use scissors to poke two holes in the sides of a bowl. The holes should be opposite one another.

**4.** Stick the ends of your straw through the holes so the straw rests in them.

**5.** Stick the ends of the straw through the large beads so the straw won't fall into the bowl. If the beads are a little loose, duct tape them in place. If they fit snugly, you won't need to tape them.

**6.** In another bowl, cut a slit on one side, big enough to pull your paper through.

**7.** Place the bowl upside down on the first bowl, with the slit facing the front. Pull your paper through the slit.

**8.** Tape a toothpick to the end of your paper scroll so it won't fall into the bowl.

**9.** Staple the two bowls together.

**10.** Decorate the bowls like a treasure chest.
