

Gift Star Instructions

1. Fold one square of wrapping paper in half, and then unfold it. Rotate the paper and fold it in half again in the opposite direction.

2. Measure each fold line and mark $1\frac{1}{2}$ inches away from each edge of the paper.

3. Cut along each fold line up to the $1\frac{1}{2}$ -inch marks.

4. Use markers to decorate the colored side of the wrapping paper.

5. Fold each corner as shown, and tape it together.

6. Repeat all the steps above with the second square of wrapping paper.

7. On a small piece of scrap paper, write a spiritual gift you think you might have. You can refer to the signs hanging around the room for ideas.

8. Crumple the scrap paper and place it between the two star sides you created. Rotate the sides so there are eight points to the star, and tape the sides together with the spiritual gift hidden inside the star.

9. Add a hanger by taping a loop of gift ribbon to one point of your star.
